BENNETT FIELD, DETROIT.
Oct. 12.—Before a great crowd
of freezing but enthusiastic fans, the
Tigers had things their own way
with the Pirates in the fourth of
the world championship series. Mullen
was a puzzle to the visitors from the
west, while Leifield could not stop
the Detroit sluggers.

Five runs in two innings was
the product of the Jennings aggre-
gation's swiftest, and that was enough
to settle the argument. Mullen had
nine strike-outs in six innings, and
chance of defeat now seems re-
mote.

Umpires Klem (National) on the
bases behind the bat. Evans on bases
and Johnstone and O'Loughlin sta-
tioned themselves on the skirts of
the crowd to judge foul and fair hit.
Clarke assigned Leifield to the
slab Stange will catch for the Tig-
ers. Mullen is pitching for Detroit.

First inning.—Pittsburg: The first
ball Mullen pitched to Byrne was a
strike. Byrne then grounded out.
Deleahanty to T. Jones. Bush then
threw out Leach. Clarke out. Deleahanty
to T. Jones. No runs, no hits,
no errors.

Detroit:—Leach was playing in
close and grabbed D. Jones' liner al-
though he slipped and almost fell
in the attempt. Bush was easy. Lei-
field tossing his little rap to Abstein.

PIRATES ARE FINED
Manager Clarke and players
Leach and Clarke of Pittsburg
were fined \$25 by the National
commission for their run in
with Umpire O'Loughlin yester-
day after "Slik" had reversed
the ruling of Johnstone who
called Morarity out at first.

In plenty of time, Leifield sent one
against Cobb's ribs and Ty went to
first. Cobb was caught off first but
went to second when Abstein drop-
ped Leifield's assist. Crawford fled to
Leach. No runs, no hits, 1 error.
Second Inning.—Pittsburg: Umpire
Klem sent Wild Bill Donovan of the

GESSLER RESUMES BANGOR INDEPENDENT

BANGOR, Wis., Oct. 12.—
(Special)—B. F. Gessler, former
proprietor of the Bangor Inde-
pendent, who for some time has
been the editor and publisher
of the Barron County Shield,
appeared at Bangor today un-
announced and is again in
charge of the Bangor Inde-
pendent.

Mr. Gessler has sold the Bar-
ron County Shield to Mr. W. F.
Durnel, who has been the pub-
lisher of the Bangor Inde-
pendent so the deal practically
means that the two editors will
exchange positions. Mr. Durnel
will have associated with him
on the Barron County Shield a
newspaper man from Grand Ra-
pids.

"TY" COBB SLIDING TO THIRD IN SATURDAY'S GAME.

The Tigers' star fielder, after pilfering home plate under the nose of Pitcher Willis, attempted to pass from first to third on an infield hit, and failed only because he slid past the bag and was tagged before he could return to it.

COTTON HARVESTS SAID TO AFFECT PRICE

ST. LOUIS, Mo., Oct. 12.—Down in
the big southern cotton markets,
New Orleans, Galveston, Houston,
they are juggling figures that run
into the millions trying to show why
cotton spinners have to pay 13 1-2
cents for cotton the like which they
have just been spinning for 10 cents.
The figures reveal some unusual cot-
ton conditions. Pessimists say the
Texas crop is short, the Oklahoma
and Mississippi crops injured by boll
weevil and drought, and the visible
supply rapidly diminishing. Optimis-
ts say this crop is within 11-12 or
its normal size the country over
with tariff and speculation as causes
for the boost. Incidentally shipping
reports especially from Galveston
and New Orleans show increases over
shipping receipts at the same time
last year.

Cold weather and storms are pre-
dicted, there has been snow in
southwestern Texas, frost is feared.
These factors help the bulls.
Summing it all up, experts here to-
day declare the talk of a total fail-
ure of the Texas crop is a humbug,
that the shortage is less than half
the 2,000,000 bales exploited, and
that the crop in the United States
will be less than 2,000,000, bales
short of the average yield.

MOUNTAIN RUFFIAN MAKES MORE TROUBLE

SAN BERNARDINO, Cal., Oct. 12.—
It was learned today that Billy
Boy, the Indian, who is surrounded in
the mountains by a posse who are
trying to arrest him for the murder
of a white man and a white girl,
has been supplied with materials to
reload six hundred shells.

It is feared these were smuggled
to him by squaws and orders were
issued today to remove all Indians
from that vicinity. Sheriff Ralph ar-
rived here today and at once secured
forty high power rifles with tele-
scope sights and will take forty men
from here who are familiar with
their use. The county board of su-
pervisors have authorized the sheriff
to spend any amount to secure his
capture.

ties in the city of Cleveland, was

TAFT SURPRISES SAN DIEGO PEOPLE

LOS ANGELES, Cal., Oct. 12.—"If
you will let me, I will take this me-
mento of the place where my father
died. I think he was one of the great-
est boosters that ever lived in this
country. His interest in San Diego
never abated."

When President Taft made the
foregoing remarks today to a dele-
gation of San Diego, Cal. business
men, who are here boosting the ex-
position to be held in their city six
years hence, he sprung a surprise on
the southern Californians. The fact
that Taft's father had been a San
Diego booster was not known be-
fore to the San Diegans themselves.
The memento was a miniature re-
lief map of San Diego county, done
in wood and silver.

CHARGE AGAINST JUSTICE GAYNOR

NEW YORK, Oct. 12.—The charge
made last night by Wm. M. Evans,
once the republican candidate for
mayor of New York and a leading
member of the New York bar, that
Justice Wm. J. Gaynor of the su-
preme court, now the Tammany can-
didate for mayor, passed on the con-
stitutionality of the anti-betting law
even before that measure had been
signed by Gov. Hughes, will probably
lead to sensational developments.

KNIGHTS HAVE A BANQUET WEDNESDAY

tion to the banquet a musical pro-
gram has been arranged. Mrs. Grace
McLindon-Bartl and Carl Noelle will
render solos.

LA FOLLETTE CENSURES TAFT.

ST. PAUL, Minn., Oct. 12.—The
temper of the public mind on the
subject of the new tariff law was
demonstrated here in connection with
the address which Senator La Fol-
lette of Wisconsin delivered on the
subject of Representative Govern-
ment and the Tariff. He spoke at
the People's church under the aus-
pices of the Good Fellowship club. He
was introduced by United States Sen-
ator Clapp of Minnesota, who paid a
high tribute to his work in congress.
He was cheered and applauded at
frequent intervals. Many times he
was interrupted by audible expres-
sions of approval of his views. As
he warmed up to his subject, the in-
terest of his hearers increased pro-
portionately, and two or three times
he was told that they would be glad
to stay all night and listen to him.

CANNOT DICTATE PAPERS' STORIES

Thus Complains John Web-
ber when Mayor Asks
Him About Muz-
zling Crimes

The substance of the controversy
with the police over muzzling of news
which might tend to expose ineffi-
ciency in the police department, so
far as Mayor Ori J. Sorenson is con-
cerned is that the chief, failing in
his attempts to control what the
newspapers print, will give them no-
thing. He claims they do not tell
the truth and says they have not
played fair with him. He has not,
however, cited instances of when he
was betrayed.

Chief's Funny Story
"Publicity is the thing," said Ma-
yor Sorenson in an interview yester-
day at his office, "but Chief Webber
claims that stories that are told to
the reporters are not published truth-
fully." He stated that he has asked
the chief why he had not given stories
to the paper and Mr. Webber had
replied:

"Because they are not published
the way I tell them. When I (Web-
ber) asked them why they had not
been printed that way, they tell me
that they are not sensational enough."
This was the statement made by
the mayor, when he was questioned
at a meeting of Commissioner
John Langdon, Chief Webber and
himself at the butcher shop of Lang-
don and Boyd Saturday. He claimed
that there had been no meeting but
the three men "happened to drop in-
to the place while one of them was
purchasing some meat."

Accuses a Clique
"I think that this attack on the
policy of Mr. Webber is a piece of
spite work," continued Mr. Sorenson.
"There are a few men in the city
who hate Mr. Webber and who are
seeking to get his job away from him.
Nothing will be done about this pub-
licity matter. The thing that should
be done is this: Mr. Webber and
The Tribune should get together and
agree as to some policy for the fu-
ture. If there is any complaint to
be made against the department, it
should be made to the board of fire
and police commissioners and if any
of the officers have not done their
duty, the commission will discharge
them. As far as I am concerned I
have not the power to discharge an
officer."

The mayor would not name any
of the men who he said were after
the chief's job.

Ori's Expectation
"We expected that the story of the
Linker hold-up would appear in your
paper yesterday evening in big blaz-
ing headlines and that it would say
that although it was not known that
any one had been killed, you could
find large spots of blood." The ma-
yor was assured, however that it was
not the policy of the paper to publish
stories that were untrue and that if
he examined the files he would be
able to see for himself that this was

SHOCKING MURDER OF A YOUNG WOMAN

Find Legs of Young Woman
in a Suit Case in the
Woods—Murder
Suspected

NEWPORT, R. I., Oct. 12.—What
seems to be an atrocious murder
was discovered here when George
Potter, a rural letter carrier, discov-
ered a battered suit case in the
woods near the town of Twerton.

In the case, loosely wrapped in a
newspaper, was the upper part of a
right leg. Resting upon the cover of
the bag was a similar portion of a
left leg. In the thicket a few feet
off in another direction was the lower
part of the left leg. The date of the
newspaper, Oct. 10, makes it ap-
pear that the deed was committed on
Sunday night or early Monday morn-
ing.

Medical Examiner Stimson is con-
vinced that they were those of a
young girl of about 18.
The police immediately banked on
the theory that the case was similar
to the famous Susan Geary case in
Boston a few years ago, where a dis-
membered body was found and some
time afterward it was shown the girl
had been slain.

That the murder was committed in
New Bedford and the legs of the vic-
tim dropped from an automobile from
that city is the impression of the au-
thorities here. The limbs appeared
to have been severed from the torso
with a common handsaw. Examination
of the parts by medical examiner
Stimson indicated they had been cut
off some fifteen hours before, which
would place the time of the probably
murder Sunday night last.

The leg and thigh are parts of the
body of a woman or girl who was
about five feet three inches in height
and weighed about 110 pounds. The
foot shows the woman probably wore
a number three shoe. A large cal-
lus on the bottom of the foot indi-
cated the victim was accustomed to
much walking or standing and sug-
gested she may have been a working
girl.

CZAR DECIDES TO VISIT ROME SOON

ROME, Oct. 12.—It developed to-
day that the czar's reversal of his
decision not to visit King Victor was
due to assurances made to him by
the Italian police that they have
the anarchists of Italy well in check
and have arrested the leaders of the
plot to assassinate the Russian
ruler.

FLORISTS WON'T MEET

There will be no meeting of the La
Crosse Floral association this even-
ing. President J. S. Medary stated
today that the organization has held
no meetings for the past few months
and that all interest in the matter
had ceased. Whether interest in the
association will be revived, the pres-
ident was unable to state.

RESIGNATION OF U.S. MINISTER TO CHINA OCCURS

Mr. Crane Resigns at Re-
quest of Secretary Knox
After Private Interview
at Washington

MESSAGE TO PRESIDENT TAFT

Mr. Knox Tells of Alleged
Indiscretions as Reasons
Why the Resignation
was Called For

WASHINGTON, D. C., Oct. 12.—
The state department this afternoon
announced the resignation of Charles
R. Crane of Chicago, minister to
China.

Knox Makes Statement

In a formal statement to the press,
Secretary Knox says:
"I have reluctantly reached the
conclusion that the good of the ser-
vice demands I should inform Mr.
Crane his resignation will be accept-
ed and I have done so."
Secretary Knox has sent a dis-
patch to President Taft announcing
his decision.

The reason for the action of the
department are the newspaper stor-
ies printed concerning affairs of the
orient. The secretary says of this
in his announcement:
"The department of state has been
engaged for some time in making a
study of the recent agreement be-
tween China and Japan in relation
to Manchuria from such data bearing
upon the situation as it was able to
secure with a view of determining
whether there is anything in the
agreement adversely affecting Amer-
ican interests or in conflict with the
doctrine of equal opportunity
which the powers are pledged a study
not yet concluded and in respect to
which no decision has been reached."

Acted Indiscreetly

"While the investigation was pro-
gressing Mr. Crane, the minister to
China, came to the department and
was informed by one of the clerks
that such an examination was being
made. Without consultation with the
acting secretary, or any other re-
sponsible officer of the department
and without the knowledge or au-
thority of any one connected with
the department Mr. Crane gave out a
newspaper story to the effect that
this government was preparing to
protest some of the features of the
agreement and that the promulga-
tion of the protest only awaited the
return of an official who was to for-
mulate it."

"The story appeared in a western
newspaper and at the same time or a
day later, in the Japanese press."

The Recall

"You have been charged with the
responsibility for the canards recent-
ly appearing in the Japanese and
American press to the effect that the
United States is preparing to protest
against the China-Japanese agree-
ment. The evidences that you are
responsible for this are of such a
character that it warrants me in di-
recting you to come to Washington
and meet it. If you are not respon-
sible, as I hope you are not, matters
relating to oriental affairs have de-
veloped since you left Washington
that make it advisable for me to
communicate with you personally,
and in the utmost confidence in re-
lation thereto."

"At a conference with Mr. Crane
Sunday evening he admitted having
an indiscreet talk with a reporter,
which resulted in the publications
referred to and assuming responsibil-
ity stated that if the indiscretion was
grave enough to shake my confidence
in his usefulness he would willingly
resign. I have reluctantly reached
the conclusion that the good of the
service demands that I should inform
Mr. Crane that his resignation will
be accepted and I have done so."

Mrs. Crane Hears of Resignation

SAN FRANCISCO, Cal., Oct. 12.—
Mrs. Crane, wife of the deposed min-
ister, said this afternoon that she
had not heard of her husband's re-
signation until the news was given
her by a representative of the United
Press. She said she did not know
whether she would remain in San
Francisco or return to Chicago.

WINDS TERRIFIC, DAMAGE IS GREAT

Gulf Coast Again Visited by
a Terrific Hurricane
Sweeping the Florida
Coast and Keys

MANY VESSELS WRECKED

Houses Collapse—Key West
Is Under Martial Law—
Order Is Being Well
Sustained

NEW ORLEANS, La., Oct. 12.—
Wireless dispatches from Tampa, the
nearest point of communication from
the hurricane which swept district of
Key West, today conveys the intelli-
gence that several hundred persons
have lost their lives in the storm that
last night swept the southeast coast.

While full warning was given to
the inhabitants along the Florida
coast, the West Indies and the Flori-
da keys, little of anything could be
done save make fast the shipping
in the harbors. When the first puff
of the hurricane, however, struck
the coast it was apparent that the
storm would be one of almost unpre-
cedented severity. The wind quick-
ly gained a velocity of sixty miles
an hour, then 80 and occasionally
spurts of 100 miles was attained
with awful results to life and prop-
erty.

Houses Collapse

Houses in exposed places quickly
gave way, collapsing and pinning the
victims beneath the ruins. Terrible
as the storm was its worst phases
were quickly over and at six o'clock
last night the situation insofar as
Key West was concerned was well
in hand. The Key West guards were
ordered out to patrol the city, martial
law was proclaimed and appeals
made to both the state and federal
governments for troops and aid.

While reports are still meagre
from any but the larger cities in the
stricken districts, enough news has
been received from the keys where
a great amount of railroad construc-
tion is under way, to show that the
loss of life there is big. Between
2,000 and 3,000 men were employed
there in construction work and it is
certain that hundreds of these have
perished.

Shipping Suffers

While shipping in the southern
harbors was generally taken care of
because of the warning given by the
weather bureau of the approaching
storm, yet it is thought many steam-
ers were caught in the open sea and
heavy loss of life and ships is feared.
Steamers in the New York-New Orle-
ans trade are feared to be victims of
the storm. Among these are the
Mormus with a large list of tourists on
board which sailed from New York on
Saturday. The Antillee which was
on its way from New York has on
board Governor Sanders of Louisi-
ana and the greatest concern is be-
ing entertained for his safety.

No communication has been receiv-
ed from any of the many boats that
are known to have been caught in
the gale. Of the smaller vessels,
scores are known to have been wreck-
ed and reports from places along the

Here is a simple problem in arithmetic for the Man Who Spends Money For Advertising:

What does 2 times the paid city circulation of the Chronicle, plus the
paid city circulation of the Leader - Press, plus 256 equal?

It Equals The Paid City Circulation of THE TRIBUNE.

Arithmetic always furnishes a method of proving the answer to a
problem. When you have solved this one, we will show you how
to prove that your figures are correct. It will cost something, but
The Tribune will pay the bill.

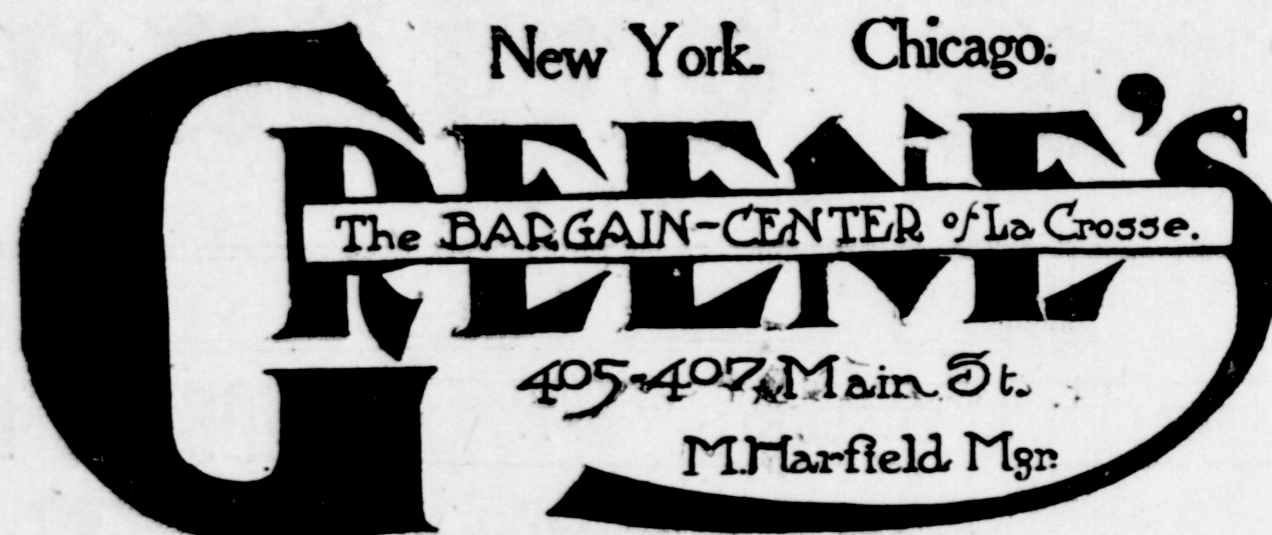

The city circulation of The Tribune is a known guaranteed quantity.

...THE...
FIELD of SPORTS**SAILOR KNOCKS OUT
THE COON CHAMPION**

SAN FRANCISCO, Cal., Oct. 12.—Fight fans are all excited today over the clean knock down of Jack Johnson by "Gunboat" Smith, a seaman from one of the United States cruisers anchored in this harbor, in a four round practice last night. Coming out of a clutch in the last round the sailor swung a right overhand chop which took Johnson flush on the chin. The negro went down flat on his back and when he recovered his feet he was so dazed that his manager called the round short. The crowd went wild when the champion went down. Johnson was doubtless caught off his guard. Is the way his friends explain the incident.

Both Johnson and Ketchel are working hard for their fight Saturday. The betting remains 10 to 4 with more Johnson than Ketchel money a night. It is still even money that Ketchel lasts fifteen rounds.

**LEAGUERS LEAVE
FOR DULUTH, MINN.**

President John A. Elliott of the Minnesota-Wisconsin league left last evening for Duluth, Minn., where the meeting of the league officials will be called today at the St. Louis hotel. He will be joined at East Winona by President Borth of the Winona club and at St. Paul by Henry Rooney, president of the local team.

On the return trip the officials will visit Stillwater, Red Wing, Mankato and Rochester with a view of selecting two of these cities for the formation of an eight-club league next season. It is understood that the Canadian league will survive after all, and thus it will be necessary to choose two of the Minnesota cities for the two remaining berths in the league.

**BASEBALL STAR
A HUNTING VICTIM**

OSHKOSH, Wis., Oct. 12.—Thomas Coates of Oshkosh, left fielder on the Oshkosh team of the Wisconsin-Illinois league this season, and drafted by the Philadelphia American league team for next season, was killed Monday afternoon in the Spring Brook marsh by the accidental discharge of his shotgun while hunting.

Coates and Mike Place of Oshkosh were out in a skiff after ducks. Coates drew his gun toward him and the weapon was discharged. The shot penetrated one of his eyes.

The remains were taken to Oshkosh, where Coates' parents live. The young man was one of the five best batters in the league and a bright future was predicted for him as a major leaguer.

Miss Anna Cluss, daughter of Matt Cluss who was quite badly injured in a runaway last Sunday and received a dislocation of the knee cap is improving slowly.

Sam Weiser, lawyer of Chicago, spent a few days with his mother at this place last week.

L. P. Weller, the photographer, will remove to La Crosse Wednesday where he will have charge of the Photo department in the Doerflinger store.

**DONLIN SURE OF
MANAGER'S BERTH**

NEW YORK, Oct. 12.—Felix Isman has purchased the stock in the Philadelphia National league baseball club held by Robert Davis, it is understood in baseball circles here, and the Magee-Donlin deal is said to be assured for next season. Isman, who is now in this city, would not deny that he had purchased the Davis stock. He said it was possible that the stock had been procured in his interest. The Davis stock was held at \$49,000, or \$12,000 more than he originally paid for it.

PRESTON, MINN.

John Hanlon, engineer on the freight run, has had his household goods shipped up from Dubuque, Iowa, and will go to housekeeping in Moore's house Thursday.

Mr. Gust Knutson of this place who was run over by a threshing machine engine last Saturday, is getting along nicely at the La Crosse hospital.

Cush Tibbetts, manager Tibbetts Theater, was initiated as a member in good standing in the Austin Lodge of Elks.

Mr. Charley Marvin has returned from a ten days vacation and has taken up his run as passenger conductor again.

The funeral of Mrs. Rhoda Dayton, sister of Hon. Judge Wells, banker and lawyer of this place, was held at her home in this city Thursday, Revs. Tibbetts and Kiehle officiating. She was buried at Decorah, Iowa Friday.

Mr. and Mrs. Charles Webb of St. Paul attended the funeral of Mrs. Dayton held at this place Thursday. Mrs. Peter Ott, and son Willie, have returned from their claim in North Dakota, where they have been during the summer. Mr. Ott is the regular station agent at this place and will take charge Oct. 14. Mr. Beeman, the relief man, of Guttenburg, Iowa, will be transferred to the Spring Grove station.

Rushford and Preston high school football teams played a matched game here Saturday. Score 6 to 0 in favor of Preston.

Jay Robinson, the popular railroad conductor, who was instantly killed at McGregor recently was well and favorably known here. His last trip here having been on the Weed burner in September.

A pound socable was given at Moore's restaurant Thursday evening by the Crown and Hill Cemetery association for the benefit of Mr. Wolf, who has been sick for some time. Mr. Wolf is the sexton at the cemetery.

Harry Kichner has been driving Frank Dornbac's delivery wagon during the absence of Harry Reynolds.

The Eastern Star was entertained by Mrs. C. Fette and Mrs. H. Freeze Friday afternoon at the home of the latter.

Miss Tressa Beck has been the guest of Mrs. Georgia Barker.

Mrs. Fred Rhoda of Moody Hill spent the day at the home of Mrs. C. J. Wolf.

The sad news has reached the home of Mr. and Mrs. John Fritz that their daughter, Mrs. Lancelot of Washington is dead. She was married and went there to live about two years ago. Mrs. Fritz started for that place immediately upon receipt of the news.

Mr. George Knapp of Pelasant Ridge spent Saturday at the home of his daughter, Mrs. J. Phillips.

Wm. Brown and Pete Herzer of Waukon drove to McGregor last Friday and from here went to Farmersburg.

Mr. Joe Gerrich spent Sunday at home with his family.

Ed. Bonza has bought the barn on the Girlich lot and removed it to his home near Girard.

Miss Katherine Riley went home Friday evening to spend Sunday with her parents on Moody Hill.

**60 MILE HURRICANE
RAGES AT KEY WEST**

WASHINGTON, D. C., Oct. 12.—A destructive hurricane was centered from fifty to seventy-five miles west of Key West this morning, according to advices received by the weather bureau.

Later advices to the bureau showed the remarkably low barometric record at Key West of 28.94.

"The hurricane is of unusual intensity," said Prof. Moore, chief of the weather bureau, this afternoon. "It will probably prove greatly destructive to lives and property."

At Sand Key the wind was 60 miles an hour this morning. Shipping in the affected area has been warned to seek refuge. It is announced that hourly observations will be taken by the bureau and all ports kept advised of the direction of the storm.

WALKING 1375 MILES**

CLEVELAND, Ohio, Oct. 12.—Mrs. W. E. Ballard of Topeka, Kan., musician and actress, who says she started to walk 1,375 miles to Albany, N. Y., is being held at Cuyahoga jail, a waiting an investigation by the probate court.

Mrs. Ballard was taken from an interurban car Saturday night unconscious. Medicine was administered hypodermically. She was rational Monday. She said she had walked all the distance from Topeka except 80 miles. In her traveling case were found medicine from a Huron, Ohio, physician and a pipe. Mrs. Ballard declares that the medicine given to quiet the nerves caused derangement.

She will make a plea to be permitted to continue her walk which she began April 6.

**CHINESE MINISTER
IN SECRET SESSION**

WASHINGTON, D. C., Oct. 12.—Charles R. Crane, new American minister to China, is in private conference today with Secretary of State Knox at the latter's residence. It is said the principal question being considered is the recently negotiated treaty between Japan and China which gives Japan a great advantage over the other nations in the development of mines in Manchuria.

We have observed, also, that a sick man rarely survives an oxygen tank.

THE COMING APOLOGY?

The local organs of reaction, ready to hazard anything to injure Senator Morris, displayed an alleged quotation of Theodore Kronsage, law partner of F. E. McGovern, in which the Milwaukee Daily News was credited with representing that Mr. Kronsage said that, "Up in La Crosse they are calling Mr. McGovern governor."

The Gelatt papers chortled over this, declaring in large type that "McGovern is the choice." We have had no opportunity to verify the accuracy of their quotation from the News by perusing the columns of that paper, but in a telephone message Mr. Kronsage has told The Tribune that what he really said was that, "Up in La Crosse they are calling Mr. Morris governor."

If they are honest and fair the stalwart papers will make a correction. Watch 'em!

OUR FRIENDS IN BLUE

The Tribune knows a lot of mighty good fellows on the police force. They are friends of the editors and reporters, and most of them would go far to do our boys a good turn. They have no voice in outlining the policy, and none of them are in the least interested, or responsible, in the suppression of the news. Lest

they mistake our attitude, The Tribune desires at this time to say to them that it has not changed a whit its friendly regard for them or its appreciation of their efforts in behalf of law and order. The present controversy is strictly between the newspapers and Chief Webber.

AN IMPORTANT ENTERPRISE
The common council of the city of La Crosse is about to face consideration of as important a business proposition as its members have ever been charged with handling in behalf of the citizens of this community. It will exact from them their most sincere and patriotic attention, and we do not doubt that they will rise to the situation and dispose of the business with foresight and intelligence. We refer to the pending application of the La Crosse Water Power company for a franchise permitting them to enter the city with the terminals of two interurban lines, one from Sparta to La Crosse and one from Winona to La Crosse.

One of the most serious handicaps under which La Crosse has labored has been the absence of these lines. While other enterprising cities, the country over, have been building up such connections with tributary territory, this city has fallen far behind in the race for local patronage. The value of such lines to a city is well illustrated by the benefits derived from the building of the La Crosse & Southeastern, which has been a fruitful source of trade despite the fact that it is a steam line. The growth of a community is largely dependent upon the trade arteries which come to its heart, and railroads such as the Water Power company will ask permission to build mean an immense advantage to the city, a fact with which the aldermen should be seriously impressed.

On the other hand, the streets are the property of the public, and use of them should be granted a public utility only upon terms securing to the citizens fullest protection of their rights and interests. Conscientious consideration of this principle is the duty of aldermen. The franchise submitted by the Water Power company should, therefore, be subjected to the most painstaking scrutiny, to the end that no valuable right of the people shall be granted away without due compensation, and that every safeguard and protection against usurpation of the property of taxpayers shall be taken.

Further discussion of the proposed franchise cannot, in advance of its publication so that all may study it, be intelligently indulged in. At this time The Tribune contents itself with the promise that it will give every assistance within its power in the discriminating study of the franchise, and in bringing to the subject all the information possible, so that in the light of full knowledge and publicity logical action may be taken.

A BIT OF DESCRIPTIVE
It makes one way out here miles from the scene rise in his imagination in the grandstand and "shout his head off," just to read accounts of the great world series. Here, for instance, is the "new lead" that came too late to publish in The Tribune last night, after the Detroit performance:

"Pittsburg defeated Detroit Tigers in one of the most interesting and exciting world's series games ever played. The Pirates gained a lead of five runs in the first inning due to

the ineffective pitching of Kiekapoo Summers, some wretched fielding on the part of the Tigers and timely hitting by Clarke's men. The Tigers came strong at the finish. They made a great effort to tie up the score and forge ahead, but brilliant fielding on the part of the Pirates after a couple of unfortunate errors kept them from achieving their aim. The game was replete with brilliant plays, Wagner, Crawford and Deleahanty being the individual stars. Wagner made four hits in as many times up and stole second three times out of four trials. Deleahanty, who led the Tigers in hitting, made a single and two doubles in four times at bat. Crawford did nothing with the bat but his fielding was spectacular. Ty Cobb also broke into the limelight in the ninth inning by making a startling catch at his shoe-strings of Miller's line drive. Ty, after a long dash for the sphere, made a forward dive, grabbed the ball and slid along the field ten feet with the ball clutched tightly in his hands. Manager Clarke, of the Pirates, brought the game to an end by making a similar play with Cobb at third, and two runs needed to tie the score. Deleahanty smashed the ball to left. It looked like a sure hit but Clarke rushed in at full speed, made a dive forward and caught the ball just before it touched the ground. He arose with the ball grasped in one hand and the game was at an end."

Now, if that isn't enough to give one heart disease one thousand miles away, we mistake the natural causes of that interesting malady.

The danger of the Wright aeroplane to war ships was demonstrated but a few days ago, when it hovered for a time directly above a British war vessel at the Hudson-Fulton celebration. The aviator claimed that from his position, he could easily have dropped a large bomb on the deck of the ship and totally demolish it. Once more, America to the front, or rather, America on top.

The practice of hazing in the colleges and universities of this country is getting constantly more serious, and when we pause to contemplate the fact that the sophomores of Barnard college have just hazed the first year girls by depriving them of their puffs, rats and switches, we pause to shudder (please insert shudder) at the barbarity of the custom.

If Dr. Cook is to rely on the straw voting contests about the country as to whether Commander Robert Peary or he discovered the north pole, he will not have to fear as to the outcome of the polar controversy.

What has become of the thieves who robbed the Lutz store and the Walsh diamonds? One may as well ask "How old is Ann?"

Removes Poisons of Catarrh and Rheumatism from the Blood
For catarrh of the head use a teaspoonful of salt and a quarter teaspoonful of borax dissolved in a pint of warm water. Snuff this mixture through the nostrils twice daily and immediately relief is experienced. To cure, a constitutional blood remedy must be used. Catarrh and rheumatism are both due to accumulated poisons in the system. These poisons must be eliminated.

The following simple home mixture effectually acts on the kidneys, the bowels and the skin, causing them to resume their functions quickly and properly:

Get one-half ounce fluid extract Buchu, one ounce compound fluid Balmwort, and two ounces syrup Sarsaparilla compound. Mix and take a teaspoonful after each meal and one at retiring. Many cases of catarrh, rheumatism, and kidney trouble have already benefited by this treatment.

In Dublin
A traveler who was in Dublin not long ago noticed in the postoffice there a number of boxes into which letters were to be dropped. Sour Grapes
W. D. Howells said of an unsuccessful playwright on the President Grant:

"Perhaps it is because he can't write plays himself that he condemns the modern stage. Perhaps it is a case of sour grapes with him just as it was with Johnson."

"Johnson proposed to an elderly heiress. But even in the course of his proposal the man could see he stood no chance. So he ended rather abruptly and the heiress said in a cold voice:

"No, I cannot marry you Mr. Johnson. The only man I ever loved was killed at the battle of —"

"Bunker Hill?" snarled Johnson, as he hastened forth into the night."—Washington Star.

Good Measure
Jasper had been given a pint measure and sent up to the storeroom with orders to bring down that amount of beans. When he returned he was walking very slowly and carefully, scarcely bending a joint and holding the pail clasped closely in his arms, so as not to spill any of the piled up beans. Reaching the kitchen table, he gently slid the pail over on one corner of it and breathed a sigh of relief when not a single bean stirred from the well rounded top.

"Why, Jasper, did you get your pail full?" asked his mother sociably.

"Yes, mother, here's your pint—except one bean that would keep rolling off," and he drew a solitary bean from his pocket and added it to the already heaped-to-overflowing measure.—The Delineator.

ROYAL BAKING POWDER

Absolutely Pure

THE ONLY Baking Powder made from Royal Grape Cream of Tartar

The Little Brown Jug at Kildare.

BY MEREDITH NICHOLSON.
COPYRIGHT 1908

"I wonder if the governor's back yet?" asked one man.

"The morning paper says not, but he's expected today," replied the man with the newspaper.

"About the first thing he'll have to do will be to face the question of arresting Appleweight. I was in Columbia the other day and everybody was talking of the case. They say—"

and speaker waited for the fullest attention of his hearers—"they say Osborn ain't none too anxious to have Appleweight arrested on his side of the line."

"Why not?" demanded Ardmore. "Well, you hear all kinds of things. It was only whispered down there, but they say Osborn was a little too thick with the Appleweight crowd before he was elected governor. He was their attorney, and they were a bad lot for any man to be attorney for. But they haven't caught Appleweight yet."

"Where's he hiding; don't the authorities know?"

"Oh, he's up there in the hills on the state line. His home is as much on one side as the other. He spends a good deal of time in Kildare."

"Kildare?" asked Ardmore, startled at the word.

"Yes, it's the county seat, what there is of it. I hope you never make that town!" and the inquirer bent a commiserating glance upon Ardmore.

"Well, they use jugs there, I know that," declared Ardmore; whereat the table roared. The animosity of their applause warmed his heart, though he did not know why they laughed.

"You handle crockery?" asked a man from the end of the table.

"Well, I guess Dilwell county consumes a few gross of jugs all right. But you'd better be careful not to whisper jugs too loud here. There's usually a couple of revenue men around town."

They all went together to the office, where they picked up their sample cases and sallied forth for a descent upon the Raleigh merchants; and Ardmore, thus reminded that he was in the crockery business, and that he had a sample in his room, sat down under a tree on the sidewalk at the inn door to consider what he should do with his little brown jug.

It had undoubtedly been intended for Governor Dangerfield, who was supposed to be on the train he had himself taken from Atlanta to Raleigh. There had been, in fact, two jugs, but one of them he had tossed back into the hands of the man who had pursued the train at Kildare. Ardmore smoked his pipe and meditated, trying to determine which jug he had tossed back; and after long deliberation, he slapped his knee, and said aloud:

"I gave him the wrong one, by jing!"

The boy had said that his offering contained buttermilk, a beverage which Ardmore knew was affected by eccentric people for their stomach's sake. He had sniffed the other jug and it contained, undoubtedly, an alcoholic liquid of some sort.

Jugs had not figured prominently in Ardmore's domestic experiences, but as he sat under the tree on the curb before the Guilford House, he wondered, as many other philosophers have wondered, why a jug is so inalienable of innocence! A bottle, while suggestive, is not inherently wicked; but a jug is the symbol of joyous sin. Even the soberest souls, who frown at the mention of a bottle, smile tolerantly when a jug is suggested. Jugs of many centuries are assembled in museums, and round them the ethnologists reconstruct extinct races of men; and yet, even science and history, strive they ever so sadly, can not wholly relieve the jug of its cheery insouciance. A bottle of inferior liquor may be dressed forth enticingly, and alluringly named; but there's no disguising the jug; its genial shame can not be hidden. There are pleasant places in America where, if one deposit a half-dollar and a little brown jug behind a certain stone, or on the shady side of a blackberry bush, jug and coin will to gether disappear between sunset and sunrise; but let the jug, filled and plugged with a corn-cob, will return almost mysteriously, in contravention of the statutes in such cases made and provided. Too rare for glass, this liquid, which bubbles out of the southern hills with as little guilt in

its soul as the brooks beside which it comes into being! But, lest he be accused of aiding and abetting crime against the majesty of the law, this chronicler hastens to say that on a hot day in the harvest field, honest water, hidden away in a little brown jug in the fence corner, acquires a quality and imparts a delight that no mug of crystal or of gold can yield.

As Mr. Ardmore pondered duty and the jug a tall man in shabby corduroy halted near by and inspected him carefully. Mr. Ardmore, hard upon his pipe, had not noticed him, somewhat, it seemed, to the stranger's vexation. He patrolled the sidewalk before the inn, hoping to attract Ardmore's attention, but finding that the young man's absorption continued he presently dropped into a neighboring chair under the maple tree.

"Good morning," said Ardmore pleasantly.

The man nodded, but did not speak. He was examining Ardmore with a pair of small, shrewd, gray eyes. In his hands he held a bit of crumpled brown paper that looked like a telegram.

"Well, I reckon you jest got to town this mornin', young fella."

"Yes, certainly," Ardmore replied promptly. He had never been addressed in quite this fashion before, but it was all in keeping with his new destiny and he was immediately interested in the stranger, who was well on in middle age, with a rough grizzled beard, and a soft hat, once black, that now struggled for a compromise tint between yellow and green.

"Ever been hyeh befo'?"

"Never; but I'm crazy about the place and I'll be seen here a good deal hereafter."

Ardmore produced his cigar-case and extended it to the stranger. The man, awed by the splendor of the case, accepted a cigar a little gingerly.

"Drummer, I reckon?"

"Commercial traveler, we prefer to be designated," replied Ardmore with dignity.

"I guess drummer's good enough down hyeh. What y'u carry?"

"Jugs. I'm in the jug business. Never had any business but jugs."

The man paused in lighting his cigar, stared at Ardmore over the flame of the match, drew the fire into the cigar several times, then settled back with his hands in his pockets.

"Full 'r empty?"

"The jugs? Oh, empty jugs; but it's no affair of mine what becomes of the jugs afterwards."

"Y'u likely got samples with y'u?"

"Well, not many. You see my line is so well known I don't have to carry samples any more. The trade knows our goods."

"Stop at Kildare on the way up," and the stranger looked about guardedly.

"Certainly, my friend, I always 'make' Kildare," replied Ardmore, using a phrase he had acquired at breakfast.

"Train runs through the pretty late at night?"

"Beastly. But I hardly ever sleep, anyhow. A man in my splendid health doesn't need sleep. It's a rotten waste of time."

Silence for several minutes; then the stranger leaned forward in his chair, resting his elbows on his knees and said in a low tone:

"I got a telegram hyeh says y'u got a jug that y'u ain't no right 't last night at Kildare. I want that jug, young fella."

"Now that's very unfortunate. Ordinarily I should be delighted, but I really couldn't give away my Kildare jug. Now if it was one of my other jugs—even my Omaha jug, or my dear old Louisville jug—I shouldn't hesitate a minute, but that old Kildare jug! My dear man, you don't know what you ask!"

"Y'll give me that jug or it'll be the worse for y'u. Y'u ain't in that game, young fella."

"Not in it! You don't know whom you are addressing. I'm not only in the game, but I'm in to the finish," declared Ardmore, sitting upright in his chair. "You've got the wrong idea, my friend, if you think you can intimidate me. That jug was given

me by a friend, a very old and dear friend—"

"A friend of yours?"

"The keen little gray eyes were blinking rapidly."

"One of the best friends I ever had in this world," and Ardmore's face showed feeling. "He and I charged side by side through the bloodiest battles of our Civil war. I will cheerfully give you my watch, or money in any sum, but the jug—I will part with my life first! And now," concluded Ardmore, "while I should be glad to continue this conversation, my duties call me elsewhere."

As he rose, the man stood quickly at his side, menacingly.

SWITCH ENGINE BUMPED CAR

Unfortunate Man Did Not
Have Time to Escape
and His Life Paid
the Penalty

Mark Tyson Roberts, a night switchman, employed by the Chicago, Milwaukee and St. Paul railway, while coupling two coaches in passenger train No. 3 at the Vine street station at about 6:15 o'clock this morning, was caught between the cars, which crushed his head. The injured man died at the La Crosse hospital about two hours later.

The switchman had just removed the sleeper from the train and was coupling on a dining car when the accident overtook him.

He was between the two coaches, coupling the air hose, when a switch engine on the down grade backed into the car, catching the switchman between the bumpers, before he could jump aside. His head was crushed into an unrecognizable mass. Dr. Suiter, who was called, found the man in a dying condition and had him removed to the La Crosse hospital. The physician stated that the man was practically dead when he arrived at the station. He could barely distinguish breath from the body. This ceased about two hours later, without the regaining of consciousness.

He was 40 years of age and is survived by his widow and three children, William, aged 13; Walter, aged 5, and Gertrude, aged 2 years, and his step-father, Donald McKenzie. No funeral arrangements have as yet been made, but will be announced later.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. EXPLANATION--HOW TO WIN.

All that is necessary to do is to supply the proper and required number of deficient letters as indicated by the dashes (—) shown in each of the above 11 skeleton names of cities, each of which had a population of over 10,000 in 1900, and the state each city is in, fully spelled out. After you are SURE that you have supplied the RIGHT letters in each, write (or print) the fully spelled names one above the other, and the state each city is in fully spelled out, so that the first or initial letters of the entire 10 names will spell out, when read from top to bottom, one of the great honors bestowed upon the famous BALDWIN LINE OF PIANOS. Looks easy enough, don't it. BE CAREFUL, JUST THE SAME.

The judges selected are: Ole Elbertson, undertaker; Capt. Phil Wendling; Leigh Toland, Wisconsin Business University.

Awards and Medals
BALDWIN—Grand Prix, Paris, 1900.
Grand Prize, St. Louis, 1904.
HAMILTON—Silver Medal Paris 1900. First Order of Merit, Australia Industrial Exhibit.

HOW TO WIN

Find Correct Solution of the Puzzle.

Envelopes containing solution will be opened for record a short time previous to the date on which the awards are given away.

The answers will then be examined in the presence of the judges and to the owner of the correct or most nearly correct solution, will be presented

One \$285 Howard Piano, First Prize. \$150 Purchase Check and \$10 in Gold as Second Prize, and \$125 Purchase Check and \$5 in Gold as Third Prize.

To the other contestants will be awarded in order of merit Purchase Checks of the following denominations, good on any new piano of Baldwin manufacture in the stock of the undersigned:

Ten Purchase Checks, each	\$100
Fifteen Purchase Checks, each	95
Twenty Purchase Checks, each	90
Twenty-five Purchase Checks, each	85
Thirty Purchase Checks, each	80
Thirty-five Purchase Checks, each	75

Should there be more than one correct solution, or should two or more tie in securing the most nearly correct solution, awards will then be made upon penmanship and general appearance of the tying contestant's paper.

If you are fortunate in getting one of these Purchase Checks and already have a piano, the purchase check may be disposed of to some one else, provided such transfer is properly endorsed by us.

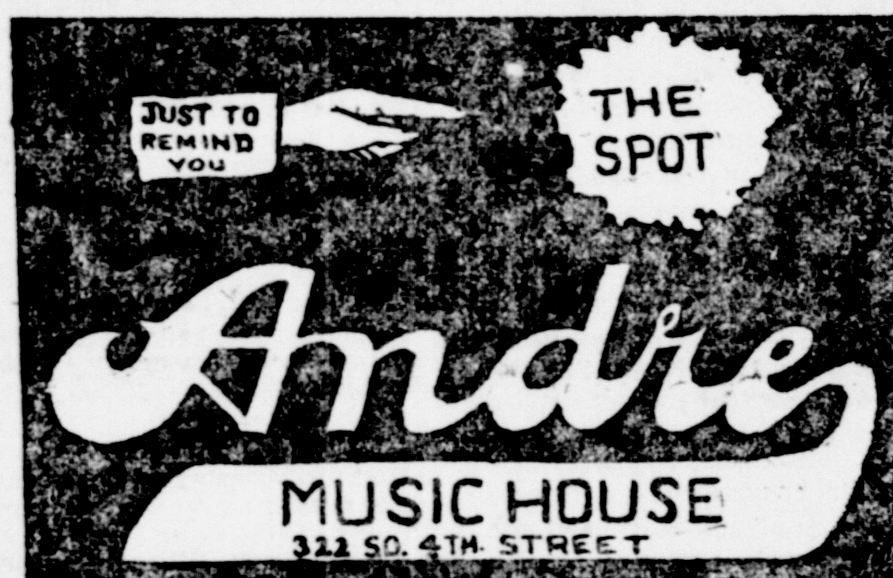

Name Date

Street and No. Town or Rural Route

If you are under age give name of father and mother

Have you a piano or organ If so, what kind and how old?

Directions for Contestants

Write your solution on a plain sheet of writing paper (complete information blank opposite) and send or bring to us.

There are no limits or restrictions as to the number of contestants in a family but only one prize will be given in a family.

None of the prizes can be awarded to anyone in the family of an employee of The Baldwin Company, or the undersigned, or to any one of the judges in this contest, or to any one in their immediate families.

Only one coupon may be applied on the purchase of any piano.

Winners of prizes can apply same on any new piano in the entire line of Baldwin, Ellington, Hamilton, Howard, Valley Gem and Monarch Pianos carried in plain figures at the regular selling price and not only will the coupon be accepted as so much cash on a piano, but the balance of the purchase price may be arranged on easy terms if desired. Every piano is fully warranted by the Baldwin Company.

This Contest will close Thursday, October 14, 1909, at 9 a. m., and all answers must be delivered to us on or before that hour.

MADISON METHOD BEST SAYS DAY

Tar-Macadam Is Handled
There Like Tar and Peb-
ble Roofing in Contin-
uous Work

President James T. Day of the board of public works has returned from Madison, where he spent a day inspecting the construction of tar-macadam pavements. The methods in use there, says Mr. Day, are somewhat different than were proposed for the local work by the expert sent by the asphalt company. The city first installs a solid base upon which to work, and rolls in the foundation in good shape. The asphalt is then poured upon the base, another crew follows immediately with the top dressing of fine stone, and immediately thereafter comes the roller, to pack the top stone into the asphalt before the hot mixture coagles.

Mr. Day says that the Madison engineers know little about the pavement for the reason it is merely an experiment there, and they are now laying the first they have had in use. The president of the board thinks the pavement would be all right when completed, but is not certain it is the best to be had.

An arrangement has been made with the La Crosse Stone company to share the expense of rehandling the stone on King street, so that the board is now ready to go ahead with the three blocks on that thoroughfare between Fifth and Eighth, as soon as the weather moderates and the stones dry out sufficiently to make work possible. It is impossible to work in asphalt with wet stone, and for this reason it may be some days before the work here can be undertaken. Once started Mr. Day believes the street can be finished up and opened for traffic in a few days. The method adopted in Madison for laying the street is much the same as used in placing a tar and pebble roof and is finished up with as much rapidity.

The Delirious Kind

H. K. Adair, a western detective, was being complimented in Grand Rapids about an absconding banker he had run to earth.

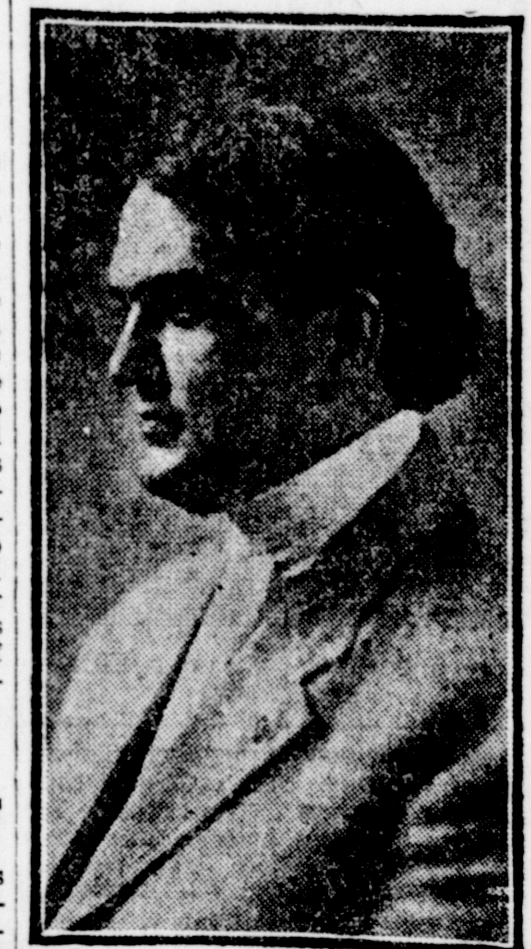

"Oh, the man gave himself away," said Mr. Adair. "He shied too much. Everything seemed in his morbid mind, to point suspicion at him. He was like the old 'widdy' woman."

"An old 'widdy' woman went to an undertaker's to order a coffin for her deceased husband."

"He was very, very, very good to me," she said, "and I'll have a coffin of the best yellow pine."

"Yes, madam. That'll be \$14," said the undertaker. "And what kind of trimmings will you have on the coffin?"

"Trimmin's!" cried the 'widdy' woman. "And right well ye know, ye spalpeen, that I'll have no trimmin's at all, when it was the trimmin's that the poor lad died of, bad luck to 'em!"—New York Tribune.

COMPROMISE WITH THE BELL COMPANY

Park Commission, Board of Public Works and 'Phone People May Get Together

Although given such authority by the council the board of public works dislikes to arbitrarily cut down the poles of the Wisconsin Telephone company where they interfere with park property, and it is likely an effort will be made to reach some agreement for the removal with the Bell phone company. The local phone manager says he is acting under the instructions from Milwaukee and that he is not authorized to change the poles until he may make some arrangement with the state manager. The board and park commission will probably give him time to make such arrangement before cutting down the poles if he shows this disposition. The chopping down of the poles would cause a big loss to the phone company and the board prefers to do nothing arbitrary if it can be avoided.

BANK ROBBERS GET \$6,000; MISS \$13,000

DALLAS, Texas, Oct. 12.—What is believed to have been a clever ruse on the part of yeggmen who cracked the safe of the First National bank at Lewisville, Texas, is today puzzling the several posses and forces of experienced detectives trailing them.

The cracksmen succeeded in getting away with \$6,000 in money and \$500 in government bonds. They overlooked a package of \$13,000 in currency. Another bank robbery was committed at Malakoff, near here, three weeks ago, \$4,000 being taken. Both robberies are believed to have been perpetrated by the same band.

DEDICATE NEW SCHOOL IN NOV.

The new La Crosse county agricultural school at Onalaska, with Principal Albert Johnson in charge, opened at 8.35 o'clock yesterday morning with 118 pupils answering the roll call, 64 of which were boys and 54 girls.

Prof. Johnson stated that this is an unusually large enrollment for a school of this kind and augurs well for the success of the institution. Since roll call several more students have enrolled.

A peculiar feature of the school is that the majority of the students are residents of La Crosse county. Active work was commenced at once, although it will take several days before the students become accustomed to the work.

The official dedication of the large and handsome building will take place either the first or second week in November. For this occasion an interesting program will be arranged.

Prof. Johnson, who has an international reputation as an athlete, stated that athletics would play a prominent part in the life of the students. It is possible that the school will put a football team in the field. This will render local competition strong and should tend to develop athletics in this vicinity.

What To Do For a Cough

Here is a home-made remedy that overcomes an obstinate cough quicker than any costly medicine you could buy. Any woman can easily make it in five minutes:

Granulated Sugar Syrup, 13 1/2 oz. Pinex 2 1/2 oz.

Put the Pinex in a clean pint bottle and fill up with the syrup, made as follows: Take a pint of warm water and stir for about 2 minutes. Take a teaspoonful every one, two or three hours. It tastes pleasant—children like it.

This simple medicine is also splendid for colds, whooping cough, bronchitis, incipient consumption, chest pains, etc.

Pinex, as you probably know, is the most potent form of Norway White Pine Compound. It is rich in all the well known pine elements. None of the weaker pine preparations compare with the real Pinex itself. Your druggist has it, or will gladly get it for you.

The full pint of this effective cough syrup can be made for 54 cents. It keeps perfectly, and lasts a whole family a long time.

Strained honey can be used in stead of the syrup, and makes a very fine honey and pine tar cough syrup.

SESSION TO OPEN TUESDAY

Janitors Preparing the Old Quarters for the Last Time—New Building Next

In preparation for the coming term of United States court which will begin in the federal court room in the postoffice building next Tuesday morning the court room is having a general overhauling at the hands of the janitors of the building, and will present a spic and span appearance when Judge Sanborn takes the bench.

Chairs and furniture are being polished, windows washed, the carpets thoroughly swept and everything is receiving a general overhauling. New green cloth has been purchased and is being used for covering the swinging doors leading from the court room into the hall, and some sound proof covering may be placed on the old wooden floor in the rear of the room to prevent the noise of spectators moving to and fro from annoying the court.

This is the last time United States court will be held in the building before the addition is added to the federal building. According to the plans for the addition now on file with Postmaster W. B. Tschanner there will be many conveniences for the United States Judge and Court Commissioner Alfred Harrison.

New Offices

Both Mr. Harrison and the judge will be given new offices in the new part of the building which adjoin the court room on the east side. The addition will be twenty-two feet wide and will be connected with the court room by two doors, one leading to the judge's office and the other to the office of United States Court commissioner Harrison.

LOW PRICED LOTS NEEDED

Only Expensive Ones Remain and Addition to Oak Grove will Meet New Need

At the special meeting of the trustees of the La Crosse Cemetery association which was held yesterday afternoon in the office of Secretary Robert Calvert, plans for carrying on the cemetery for the next twenty years were discussed.

It was decided to go about improving the new addition to Oak Grove cemetery as soon as possible next spring, and trees and shrubs will be planted and the lawns and flower beds started so as to make it conform in a very few years to the rest of the burial ground in beauty and attractiveness. It was explained that the necessity for the new addition was the lack of cheap lots in the old part of the cemetery. There are still a number of lots which can be sold at from fifty dollars up to three hundred, but there are very few left that can be sold at twenty-five.

The addition will be laid out with one section of cheap lots. Then there will be the more beautiful sections reserved for higher priced graves. These, it is explained, can not be sold for probably ten or fifteen years, until the new addition has been made a place of beauty and has come into general use, but must be arranged for now.

Another thing to be remembered in selling cemetery lots, said one of the trustees today, is that people buy their graves in the same way that they buy lots for their homes. They like to get into a good neighborhood, and always make careful inquiries as to who is going to lie in the lot next to theirs and who are the owners of lots adjoining.

Work on the lawns and shrubbery at the cemetery is practically over for the summer. With the arrival of the cold weather the crews were put to work covering shrubs and perishable flowers with straw and leaves to protect them from the winter and such plants as are perishable have been taken into the hot house.

The cemetery trustees passed upon bills for the work as far as carried out on the new addition, and took up the usual amount of routine business. The matter of building a viaduct over the Green Bay track was talked of, but as one member remarked this morning, "We are too poor to even talk about it yet for a while. Wait until we sell out half of the lots in this new addition."

WINCHESTER HAS BIG FIRE.

LEXINGTON, Ky., Oct. 12.—The fire which this morning almost wiped out the business section of Winchester, was the third disastrous conflagration that has visited the town within the past two months, the post office and the Courtview hotel being destroyed in the other two. The latest estimate places the losses of this morning at between \$50,000 and \$60,000, partly covered by insurance.

IMPORTANT TO ALL WOMEN READERS OF THIS PAPER

Thousands upon thousands of women have kidney trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they will cause the other organs to become diseased.

You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition. Poor health makes you nervous, irritable, and may be despondent; it makes any one so.

But thousands of irritable, nervous, tired and broken-down women have restored their health and strength by the use of Swamp-Root, the great Kidney Liver and Bladder Remedy.

Swamp-Root brings new life and activity to the kidneys, the cause of such troubles.

Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, may address Dr. Kilmer & Co., Birmingham, N. Y., and receive sample bottle free by mail. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

SPLENDID HOTEL BUILT AT VALIER

L. J. Kilian Returns From
Booming Center of the
Cargill-Withee
Project

SIXTY HOMES ALREADY UP

La Crosse Man Returning
From Drawing Predicts
Great Future for the
Country

A splendid stone hotel of modern and artistic design, at least sixty residences, many new and handsome stores, unrivaled spirit of push which promises great things are the things which strongly impressed L. J. Kilian, local agent of the N. Y. Life, who returned today from a week's trip to Valier, Mont., the new town connected with the Cargill-Withee irrigation project.

Mr. Kilian's brother is at Valier employed by the company and was interested in the drawing. There were thousands of people present when the land lottery was opened and it is expected Valier will show a wonderful boom within the next few months. While there Mr. Kilian says there were millions of ducks on Lake Francis, which is the 7-mile irrigation lake. They breed in the backwaters and mountain streams and pass over the lake in clouds. Coyotes are seen by the thousand. The company has 14 automobiles, and there are no roads because the ground everywhere is like a floor. For sport coyotes are pursued by the autos for miles over the flat country. When the animal tires and his tongue begins to hang out it is a sign he will soon lie down, so the pursuit is halted till the beast lies down exhausted. The hunter then runs up with the auto and either runs over the animal or shoots it. Mr. Kilian has in his possession a peculiar bone from the body of a dead coyote which is attracting much attention about the city among his friends. Mr. Kilian says these bones are highly prized by western men where they are rare and that most anyone would give a good deal to possess a similar one.

Mr. Kilian has folders showing pictures of the irrigation canal, the dam, lake, the city and other farmings views. While there he witnessed a "round-up" by the cowboys which he says was very interesting. All of the saloons in Valier are segregated across the railroad tracks and none are allowed in the heart of the residential section.

Mr. Kilian declares there is ample hunting of all kinds in that section and that Mr. W. W. Withee and other well known local men spend a good deal of spare time hunting and fishing. Messrs. W. W. Cargill and Peter Valler after whom the town is named were in Valier at the time of the drawing.

WINDS TERRIFIC; DAMAGE IS GREAT

(Continued from page 1.)

coast, even close to the harbors are that the beaches are strewn with wreckage.

Soldiers to Shoot
Soldiers have been ordered to shoot looters who began their work of pillage before dawn today. Lawless fishermen and cigar makers from adjoining islands who were warned to take refuge in the city when the storm began, started a raid on what was left of the gale demolished homes. The city is under martial law and the Key West guards are doing what they can to preserve order. There is no great life loss in Key West proper. It was on the unprotected islands on the outskirts of the city where the gale drew its heaviest death toll. Along the coast, giant waves swept over the islands, catching the inhabitants and hurling them into the sea. There were no high places affording havens of refuge.

The islands are practically flat and the twenty foot waves that passed over them swept them clean of all life.

City a Wreck
Key West proper is a mass of wreckage. In the city of 20,000 people, hardly a house is left un-lamaged, while scores of buildings have been demolished beyond all repair. The most conservative estimate of pecuniary loss is \$3,000,000. It is doubtful if \$500 will cover the loss of life.

PARENTS MEET WITH TEACHERS TONIGHT

The annual meeting of the Teachers' and Parents' association will be held this evening in the auditorium of the high school and for the event Professor Benezet announces that an excellent program has been arranged.

Miss Matthews, teacher of Latin at the high school, will talk on "Compulsory Gymnasium work for girls," and this address is sure to be in interesting feature.

Mr. Charles Schweizer will speak on "Modern tendencies in our schools." After the election of officers for the ensuing year light refreshments will be served.

The Ladies society of the English Lutheran church will meet at the church parlors tomorrow afternoon. Refreshments will be served by Mrs. A. W. Larson.

PENNY SAVINGS ACCOUNTS ARE O. K.

Who was it said the children of the public schools could not be taught to save? The first Saturday the Batavian National bank received \$29.50; the fourth Saturday they received \$48.92.

Who was it said the children took hold of the work in a spasmodic kind of way? The average number of depositors at the Exchange State bank has been 21. Last Saturday there were again 21 depositors. Several other accounts were started in the general savings department by school children who do not care to use the stamps or folders, but who have undoubtedly been influenced by them.

The children of the public schools now have on deposit \$245.21. Could the cost of the work connected with this scheme be figured at the present time, perhaps some parents, teachers, or bankers might shake their heads a bit, but let us look ahead ten years to the time when many of these school children will be men and women of affairs in the city and see if we can not behold a host of energetic, thrifty, progressive, business-like people, and then when we look again at the \$245.21 we will realize we are buying some good habits at a bargain.—Subscribing Sec. of P. S. Ass'n.

SCHOOL OF MUSIC HAS CHORAL CLUB

Backed by the signatures and financial support of the leading business men and some of the foremost educators of the city, The La Crosse School of Music has organized a choral club to be known as The La Crosse Choral Club. Two concerts will be given by the club during the year and at each one outside talent will be employed. At first, the club will present the popular choral setting of Longfellow's Hiawatha's Wedding Feast which was written by the Anglo-African composer, Coleridge Taylor.

Miss Anna L. Beebe, director of the voice department of the School of Music will be musical director. Prof. Lyle E. Gorton, director of the piano department will be the accompanist. The value of such an organization to the musical and literary circles of the city is apparent and the hearty support and co-operation of the business men gives assurance of the success of the club. The membership is composed of active and associate members.

The first consideration in selecting a watch is to get a reliable timekeeper. It makes a difference how little you spend for a watch; it is money wasted unless you can depend on it to keep somewhere near perfect time.

In the manufacture of a watch, one of the chief expenses is the final adjusting and regulating. There are, however, inexpensive watches of real merit. These are constructed along simple lines and are dependable timekeepers. Other cheap watches gotten up in a showy way, are not worth carrying.

We have learned, from years of experience, to distinguish between the good and poor makes, and we will not sell a watch at any price that we cannot guarantee.

CANNOT DICTATE PAPERS' STORIES

(Continued from page 1.)

The Tribune having published the fact that the hold-up was probably an error.

Calls Burglaries O. K.

The mayor thinks burglaries that have occurred in the last few weeks are just what any city of this size has to contend with. He admitted that many of the robberies had occurred. He stated that at the present time the city was employing one more patrolman than the charter allows and that seven of the fifteen were located on the north side. During last week when many of the robberies were perpetrated all the men worked eighteen hours per day and said "You certainly can not expect a man to work any longer than that."

As a remedy for the war on the department he suggested that the men get together and settle it among themselves. He had asked Chief Webster why he had not talked with The Tribune on the matter and Webster said that they did not give him a square deal in the publication of their stories and that he would not discuss the case with the publishers.

BREEZY POINT IS HIGH SCHOOL PLAY

The Masquers, the girls dramatic society of the high school held a meeting last evening after school and decided upon a play entitled "Breezy Point" for their next production. The story of the play centers about Eleanor Pearl, a girl of unknown parentage, and before her identity is disclosed several amusing incidents are brought forth.

The cast of characters is as follows:

Aunt Debby Dexter, mistress of Breezy Point—Maud Neprud.
Eleanor Pearl, of unknown parentage—Carmel Young.

Ashrael Grant, a workhouse wail—Alice Pryor.

Mrs. Hardscratch with business propensities—Helen Harrison.

The Hardscratch Twins, who never tell mother—Corolla Bangsberg.

Mehitable Doolittle, manufacturer of Catarrh, Snuff and Bitters—Helen Anderson.

Bernice Vernon, Laura Leigh and Edith Norton, Aunt Debby's summer boarders from boarding school; Elsie Ott, Margaret Tausche and Lena Welmar.

Clarice Fenleigh—Pauline Smith.

Fantine, Miss Vernon's French maid—Mildred.

Old Clem, the gypsy—Helen Peterson.

The society has engaged the services of Mrs. Ross to coach the girls for the play. Rehearsals will begin at once and if present plans materialize the comedy will be presented immediately after Thanksgiving.

GROCERS WOULD CHECK PEDDLERS

The principal discussion that will come up at the regular meeting of the Retail Grocers' association this evening will be on the matter of licensing the peddlers and street vendors of the city. President J. B. Murray of the association stated today that it is the opinion of the local grocers that these men, who do not pay any taxes to support the city, ought to be obliged to pay well for a license which would allow them to peddle produce on the street. He stated that in all probability the association would recommend this action to the council, in order to have an ordinance passed to this effect. Except for this one matter, regular routine business will be the order of the evening.

EVANS WILL TALK ON ITALIAN TRIP

The Artemis club of the high school has arranged a stereopticon lecture to take the place of a regular meeting next Friday evening, Oct. 16. Dr. Edward Evans, who traveled in Italy the past summer, has prepared a lecture on his travels and has secured slides to illustrate different scenes. The indications are that the lecture will be largely attended.

Tigers to the club house for criticizing a decision. Bill took his time going and delayed the game for some minutes. Wagner outguessed Mullin and drew four balls. Mullin feared Wagner would steal and kept throwing to first to hold him there. Miller struck at three foulers and retired. Wagner went to second and Abstein was safe at first when Deleahanty

fumbled the latter's roller. Wilson forced Wagner at third, Mullin to Morlarity. Wagner was presented with a large bunch of yellow chrysanthemums. Mullin made a cracking stop of Gibson's high bounder and threw him out at first. No runs, no hits, 1 error.

Detroit: Liefeld hit Deleahanty sending him to first. Morlarity singled to left, sending Deleahanty to third. On T. Jones' tap to Liefeld, Deleahanty was caught off the third sack and run out. Liefeld to Gibson. Stange singled to right, scoring Morlarity and T. Jones. Mullin forced Stange. Wagner to Miller and the latter tried to double Mullin at first. He threw into the crowd and Mullin was allowed to go to second. Davy Jones out, Liefeld to Abstein. Two runs, 2 hits, 1 error.

Third inning—Pittsburg: Liefeld fanned for the first out. Byrne sent a double to left which fell just inside the foul line. Leach coaxed Mullin into giving him four balls. With two on bases and Clarke and Wagner up, things looked threatening for the Tigers. Clarke fanned. Byrne stole third. Byrne decision looked decidedly raw. He called Byrne out at first but changed his decision. Morlarity seemed to have Byrne retired without question. Wagner fanned. He had a fine opportunity to do something but failed, the third strikeout of the inning. No runs, 1 hit, no errors.

Detroit: Bush sent a long fly to Clarke. Cobb bunted in front of the plate but was out. Gibson to Abstein. Crawford singled to center. Deleahanty singled to Abstein. The ball struck Abstein and rolled to ward Miller, who tried to make a fast play on it but was just a little late. Morlarity forced Deleahanty. Wagner to Miller. No runs, 2 hits, no errors.

Fourth inning—Pittsburg: Miller was a clinch. Morlarity making a fast play on his high bounder. Abstein did his usual world series of fanning. Wilson sent a hot single to left. Morlarity ran over to pitcher's box, picked up Gibson's roller and shot it to first. No runs, 1 hit, no errors.

Detroit: T. Jones beat out a pretty bunt down the third foul line. Stange hit into an odd double play. Wagner fumbled the ball near second but picked it up and touched second in time to force Jones and throw Stange out at first. Mullin drew a base on balls. D. Jones singled to left. Bush doubled to left, scoring Mullin. Cobb bunted to left, scoring D. Jones and Bush. Liefeld threw out Crawford. Three runs, 4 hits, no errors.

Fifth inning—Pittsburg: O'Connor batted for Liefeld. O'Connor fanned. Byrne struck out. Stange dropped the last strike but tossed the runner out at first. Leach sent a sharp roller to Deleahanty, who got him at first. No runs, no hits, no errors.

Phillippi now pitching for Pittsburg.

Detroit: Deleahanty's foul dropped in Gibson's big mitt. Morlarity sent a liner to right into Leach's hands. Byrne's throw got T. Jones at first. No runs, no hits, no errors.

Sixth inning—Pittsburg: Mullin worked hard and fanned Clarke. This was Mullin's eighth strikeout. Wagner ran into one of Mullin's slow ones but Klem refused to permit him to go to first. Wagner then sent a liner into Jones' hands. Miller was Mullin's ninth victim. The final strike looked like a ball and Miller kicked vigorously. No runs, no hits, no errors.

Detroit: Stange's biff was a roller to Wagner, who snuffed him at first. Mullin received an ovation when he came to bat. Mullin smashed a hot drive at Miller. It was too warm to handle and went for a hit. D. Jones forced Mullin at second. Miller to Wagner. D. Jones out stealing. Gibson to Miller. Miller was spiked on the play. No runs, 1 hit, no errors.

Seventh inning—Pittsburg: Abstein sent a short fly to Crawford. Wilson grounded to Mullin, and was thrown out. Gibson singled to right. Phillippi was Mullin's tenth victim. No runs, 1 hit, no errors.

Detroit: Phillippi threw Bush's bunt to Abstein in plenty of time. Cobb out. Gibson to Abstein. Phillippi dropped Abstein's throw and Crawford was safe. Phillippi threw out Deleahanty. No runs, no hits, no errors.

Eighth inning—Pittsburg: Byrne filed to Crawford, a pretty catch. Leach popped to Deleahanty. Clarke filed to Cobb. No runs, no hits, no errors.

Detroit: Morlarity singled, the ball bouncing off Phillippi's leg. T. Jones was safe on his bunt. Phillippi fumbled the ball. Both runners safe. Gibson threw out Stange. Mullin fanned. Davy Jones walked, filling the bases. Bush out. Byrne to Abstein. No runs, 1 hit, 1 error.

BENNETT PARK DETROIT, Mich., Oct. 12.—Hugh Jennings' hungry Tigers and Fred Clarke's Pirates met on a damp, windswept field in the fourth battle of the series for the world's championship this afternoon. A leaden sky, heavy with rain clouds added to the dreariness of the aspect and it is certain that if no championship battle were on tap, not a score of spectators would have been in the stand.

But nothing short of a blizzard would have kept the fans away from the big game. The wind blew a howling gale and the air was occasionally filled with tiny particles of snow that were swept into the faces of the players and spectators. It was genuine pneumonia weather but nevertheless many thousands crowded into the open seats at 10 o'clock and waited as patiently as they could for the game to begin.

The weather was as unlike that encountered in Pittsburg last week as December is unlike June. Hundreds of people from out of the city came unprepared for the violent drop in temperature and saw the game at the cost of great suffering. It was a legal holiday in Detroit and there was no opportunity for the persevering fans to warm the inner man, had they been so inclined.

Mixed high flies seem probable in the terrific wind and errors plentiful because of the benumbed condi-

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcers, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. People Freezing
The enthusiasm was great but it may have been somewhat artificial and due to the lively efforts of the multitude to keep from freezing. The impression prevailed early in the day that the game would be postponed on account of the cold but the national commission decided that in view of the people present from out of the city it would disappoint them more to have the contest postponed than to play.

Wrapped in Lap Robes
The reserved seat section was barren until shortly before the hour scheduled for the game to start as those who held reserved seat tickets were none too anxious to risk sickness by exposing themselves. Scores of women trooped into the stands carrying lap robes taken from automobiles and carriages and wrapping them about the persons witnessed the battle with some degree of comfort.

CURES REMOVE DOUBT ABOUT ECZEMA CURE
Read What Your Druggist Says About Oil of Wintergreen Compound

Druggists, Hoechler Bros., submit the following to the readers of the Tribune:
For several years we have announced, with our recommendation, that we had found a positive cure for eczema: a simple skin wash, oil of wintergreen compounded with other healing ingredients.

Yet we know there are people right in this town who have eczema, and still have never tried this remedy. We have, therefore, arranged with the D. D. Laboratories of Chicago for a special offer of a trial bottle at 25 cents instead of the \$1.00 bottle as regularly sold.

We offer this trial bottle with our recommendation and assurance that just as soon as the patient washes his itching skin, this mild liquid will take the itch away instantly. Hoechler Bros.

GETS PATENT ON SIMPLE CARBONATOR

L. W. Silberschmidt, superintendent of the brewing department of the John Gund Brewing company, has been granted a patent on a simplified liquid carbonator.

The feature of this carbonator is that it will impregnate liquids with carbonic acid gas without the use of a pump. All other carbonators now in use are very much more complicated than the one which has been simplified by Mr. Silberschmidt. The brewmaster stated today that because of the complicated methods of the other carbonators he set to work to simplify the ones in use at the brewery, with the result that the carbonators, which have been in use at the Gund brewery for the past two years were perfected.

It was only lately that Mr. Silberschmidt sought to have his device patented.

PHILLIP SMITH AT THE DOOR OF DEATH

Physicians Can Do Nothing More; Tots Are Given Warm Shoes by C. H. Berry

Phillip Smith is lingering on the verge of death at his home at 516 Pine street, his sufferings being relieved as much as possible by Drs. Tiedeman and Rowles. The patient is steadily becoming weaker and he has but a few more days to live.

The two little Smith children, a little girl about five years of age and her brother of seven, visited Humane Agent Charles H. Berry at his office in the county court house this morning, to be fitted out with shoes. They go to school daily, and the humane officer has provided them with nice warm footwear to carry them through the winter.

Dozens of little children, from all parts of the city whose little toes protruded from large openings in badly worn shoes and slippers called on Agent Berry Saturday to be provided with warm shoes and stockings and before afternoon everything in this line had been cleaned out.

With the coming of cold weather now the humane society will be called upon for a great deal of clothing, especially for women and children, and the Humane agent is busy making collections from families who have prepared packages for him. There is a special demand for footwear, little shoes and stockings and children's clothing. Donations of this kind will be greatly appreciated by the society and Humane Agent Charles H. Berry.

FEAR REBELLION IS TO FOLLOW DEATH

MADRID, Oct. 12.—An attempt is being made by the government to conceal their fear that the sentence of death passed upon Prof. Ferrer, the revolutionary agitator of Barcelona, by a court martial, will revive the revolutionary wave throughout the Catalan province. The death sentence has been approved by Captain General Santiago but it must yet be approved by the superior council of war.

There is little doubt that the latter will approve the sentence though some of the more conservative people are imploring the council to commute the sentence to imprisonment in the interests of peace.

Charity is a cloak sometimes used to cover an amateur concert.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PRESIDENT IS HALF THROUGH HIS TRIP

LOS ANGELES, Cal., Oct. 12.—When President Taft reached Los Angeles at 7:05 a. m. Monday he had covered 6,266 miles of his 12,759 mile trip or about half of the journey that is to end in Washington on November 10.

The speech or sermon he delivered before the people of Fresno Sunday afternoon was the 127th he had made since leaving Beverly.

During that time he has spoken in fourteen states to probably a million and a half of his fellow countrymen, all of whom have seen him, if they were not able to hear his words.

In addition to the six thousand odd miles he has traveled by train, he has probably gone 500 by automobile, 60 or 70 by carriage and 50 by stage.

GOVERNMENT WILL NOT SHOW ITS HAND

INDIANAPOLIS, Ind., Oct. 12.—The government will not show its hand here in the federal court in its efforts to secure the extradition of Delevan Smith and Charles R. Williams, of the Indianapolis News, to the district of Columbia for trial in the Panama canal libel case.

With only "documentary evidence," and one witness, a secret service operative, Stuart McNamara, the government's special prosecutor, submitted his case to Judge Anderson today. The documentary evidence consisted of reading the testimony of Wm. Nelson Cromwell before the United States senate committee investigating the allegations made at the time of the purchase of the Panama canal.

The one witness is Irving Sauter who testified to having bought copies of the Indianapolis News at Washington containing alleged libelous matter. Argument will begin tomorrow.

CURTIS WAITING FOR FAIR WIND

ST. LOUIS, Mo., Oct. 12.—Glenn H. Curtiss, unable to satisfy the public clamor for a real flight during centennial week, because of adverse weather conditions, is still here waiting for a fifteen mile wind to abate so he may get into the air for a long flight. Curtiss will remain until Tuesday and then, if the wind does not moderate he will go to Chicago.

And it would help some if men would only wait to be led into temptation, instead of hunting it up.

Lena Schmidt of Dudley, Tex., Writes a Letter About Cardui Having Helped Her

Dudley, Tex.—"You may use this letter in your advertising, if you like," writes Mrs. Lena Schmidt of this place.

"A few years ago I suffered every month, but after taking one bottle of Cardui, I was relieved right away."

"Cardui has surely done me a sight of good. It brought me back my health. I am now strong and well, and feel better than in years, and am doing all my housework."

Every woman needs a tonic, to take when she feels blue, miserable, sick, weak, under the weather.

The tonic to take at such a time is Cardui, the woman's tonic.

Cardui is also a medicine. For pain and discomfort, due to female ailments, no medicine is so good as Cardui.

The main ingredients of Cardui are imported direct from Europe, especially for this on woman's medicine and tonic, and are not for sale at ordinary drug stores.

Cardui acts specifically on the womanly organs, preventing unnecessary pain and building up womanly strength.

Try it for your troubles. It will certainly help you.

Miss Ella M. Wood, a professional nurse of Guilford, Conn., tells an interesting and convincing story of her experiences, in the following words: "During the years I have engaged in nursing, I have used Father John's Medicine in numerous cases by order of the attending physicians, and as I have witnessed its beneficial results in lung, throat and all kindred distempers, felt justified in recommending it when asked a nurse's advice by friends. I consider Father John's Medicine a safe, reliable and honest medicine, beneficial to both old and young, when taken as directed for specified troubles. You are at liberty to affix my name and vocation to this testimony." (Signed) Ella M. Wood nurse, Guilford, Conn.

Because of its pure and wholesome ingredients, which nourish and build up the body, Father John's Medicine so strengthens the system that it is able to ward off attacks of disease. Cures colds, coughs, throat and lung troubles without the use of alcohol or dangerous drugs—not patent medicine.

BANK ROBBERS SHOOT MARSHAL; MAY DIE

STREATOR, Ill., Oct. 12.—Night Marshal John A. Johnson was shot and seriously wounded early today by four robbers whom he had interrupted when they were about to blow open the safe in the bank at Varna, near here.

They had knocked off the vault door and were looting the safe when the guard outside encountered the marshal. The officer fired when ordered to hold up his hands. The robbers fired four shots at Johnson and escaped, taking weapons with them. The robbers in rifling the safety deposit boxes got \$500 in money or stamps belonging to the postmaster.

BRITISH PARLIAMENT DISSOLVES THIS WEEK

LONDON, Oct. 12.—The dissolution of parliament this week marking the opening of the fight for the abolition of the house of lords, is believed probable by many leading politicians today. Lord Lansdowne, Lord Ralfour and Premier Asquith were in conference with the king today in rapid succession, and political people in general are inclined to think that developments will come forth in the budget fight this week. The race meeting at Newmarket will take place this week.

GOMPERS WELCOMED AT WASHINGTON

WASHINGTON, D. "If"

If YOU were a graduate of the W.
B. U. we could give you the choice of
three positions: one with the La
Crosse Gas & Electric Co., and two
with the largest milling company in
the world.

WHY don't you enroll now. How
much longer must you read of other's
success before you will make up your
mind to come in with us. You will
never amount to anything if you
don't give yourself a chance and
make a START.

Our work is SURE; you simply
cannot fail.

A course in the W. B. U. is worth
ten years to you in the fight for suc-
cess.

If you cannot do the things we
teach, you will be crowded out by
those who can. If you can do the
things we teach, you are better pre-
pared than ninety-nine out of a hun-
dred who have to enter the business
life.

BARBER'S BILL \$6.20;
ESCORT TO DEPOT \$50

CHICAGO, Oct. 12.—Jesse Wil-
kins of Shreveport, La., does not be-
lieve in signs—at least not those in
certain Chicago tinsorial shops where
it is related Wilkins intended get-

ting a shave advertised or ten cents
and his bill ultimately amounted to
\$56.20.

Fifty dollars of the amount Wil-
kins alleges was stolen by the bar-
ber and porter who escorted him to
the depot. The bill, which Wilkins
says was handed him, amounted to
\$6.20 and included hair cut, extra
time; shampoo, Parisian style; enter-
taining conversation, hair singed,
New York style; shave, Berlin fash-
ion; hair combed, hair tonic, shoes
shined, London style.

In explaining the expenses to the
lieutenant at the Harrison street sta-
tion early today, Wilkins is quoted
as saying:

"I have no kick to make on the
item, entertaining conversation. That
barber handed out a brand of talk
that was easily worn the money.
He talked about everything from the
pole controversy to the world's ser-
ies contest. When he handed me the
bill for \$6.20 and when I mildly
protested as actual as if he were
going to swine me. Then they insist-
ed on taking me to the depot and rob-
bed me on the way."

Why Does It Cure

Not because it is Sarsaparilla,
but because it is a medicine of
peculiar merit, composed of more
than twenty different remedial
agents effecting phenomenal
cures of troubles of the blood,
stomach, liver and bowels.

Thus Hood's Sarsaparilla cures eczema,
eczema, anemia, catarrh, nervous-
ness, that tired feeling, dyspepsia, loss
of appetite, and builds up the system.
Get it today in the usual liquid form or in
the chocolate tablet form called Sarsatone.

LA FOLLETTE
CENSURES TAFT

(Continued from page 1.)

you about it. But I live in fear, in
my time, that the American people
will see simply the tariff question,
the railroad rate question, the postal
savings bank question, and not see
this great domination that is back of
it all. That is the real issue. We
haven't got to fight simply for re-
duction of the tariff. So long as this
power continues all legislation will
be controlled just as the last revision
of the tariff was controlled." (Great
applause.)

Following are some of the pertinent
paragraphs from the senator's
address:

The End of Competition.

"Just at this point, the wall erect-
ed by the Dingley tariff, these or-
ganizations to suppress competition
were formed and as a result the
prices began to mount in the cost
of living until down to tonight from
the time the Dingley law was passed
the cost of living in every family in
this country has increased from 40
to over 60 per cent."

Platform Very Explicit.

"Review all the platforms of the
republican party and you will find
none so explicit and definite as this
platform. They said that this
tariff should be revised. It didn't
stop with that. There was no strad-
dle, there was no smothering of
drums; definite and clear came the
statement that it should be revised
upon the difference in the cost of
production."

Party Pledges Sacred.

"Now I think that a platform
promise is absolutely sacred. Do you
know after you reach your majority
and begin to vote for presidents you
don't have very many more votes

before the average life of a man is
terminated? . . . Now, you ought
not to be cheated out of those votes.
It is all the part that any American
citizen has in this government under
the plan of the fathers, through his
vote."

An Answer to Taft

"Let no man stand before an intel-
ligent audience, between the two
oceans of this country, and say that
this bill is a fair compliance with the
terms of the republican platform.
It is nothing of the sort. It is a
violation of it in letter and spirit."

The Aldrich Method

"Senator Hale, as chairman of the
cause, is clothed with power to
choose the chairman of the commit-
tee on committees and that chair-
man is to have power to select his
associates and form the committees.
Hale chooses Aldrich. Aldrich
chooses his associates on that com-
mittee and he puts Hale on. (Ap-
plause.) And some others, a few very
nice gentlemen, patriotic gentlemen,
but the majority of them won't
make any trouble for Aldrich or
Hale. Then the committees are re-
ported out and, of course, they are
so distributed that the thing goes
through."

The Thing to Do

"Do you realize what you have got
to do? You have got to beat Ald-
richism and Cannonism. I don't mean
Aldrich and Cannon. It is not neces-
sary to beat Aldrich in Rhode Island
or Cannon down in the Danville dis-
trict, though I hope and pray it may
be done just as an example of good
to the country in both places. (Great
applause.) It is not necessary to do
that; just keep Aldrich and Cannon
out of the state of Minnesota and ev-
ery congressional district in the state
of Minnesota; and do that in every
state in the union and you have set-
tled this problem."

As to Party

"Oh, I would to God that corrup-
tion flew a flag and thundered from
the mouth of the cannon!"

"This monster organization cares
not a whit whether the republican or
democratic party is in power. It sim-
ply is seeking for legislation which
promotes its interests. I appeal to
every democrat and every republican
in the state of Minnesota to rally
to the support of the men in your
state; without respect to their party
affiliations, the men whom you have
seen tried in the United States sen-
ate and in the house of representa-
tives and who have proven true to
public interests."

Currency Legislation

"Take the banking and currency
laws of the country. We have got a
currency commission now. Senator
Aldrich is at the head of it. (Ap-
plause and laughter.) He named the
other members. (Laughter and ap-
plause.) They are going to help him
out. They are going to report out a
measure this coming congress, I sus-
pect it is going to be for a central
bank. But I suspect the control of
that central bank will be here. Fight,
as you would fight for your lives
against that legislation. I don't care
who stands for it. (Applause.) I
don't care who backs it up or who
endorses it. I don't care what sanc-
tion it may have from high places;
fight it as you would fight for your
lives, because the control of the cur-
rency is the latch ditch!" (Ap-
plause.)

SALESMEN LEARN
FARM MACHINES

On the Koch and Seiler farms east

C. R. Kluger, the Jeweler, 1060
Virginia Ave., Indianapolis, Ind.,
writes: "I was so weak from kidney
trouble that I could hardly walk a
hundred feet. Four bottles of Fe-
ley's Kidney Remedy cleared my
complexion, cured my backache and
the irregularities disappeared, and I
can now attend to business every
day and commend Feley's Kidney
Remedy to all sufferers, as it cured
me after the doctors and other rem-
edies had failed." O. T. Erhart.
